

April 27/68

Dear Bill

The enclosed draft of a few thoughts on Lake Bernard may be of help if you wish to make a report to L. B. C. A.

I don't think we should touch on the Bluffs. Should anyone bring up the subject - they have been accepted and approved by Council.

Re-mention re-appointment of Leyton Woods as warden for another year.

Our lease renewed for another year without going into detail.

You can indicate that we intend to carry on our conservation efforts on Motherwell hoping that condition in regard to the beam will be ^{be} temporarily heavy trapping.

M. J. Koon.
